EXPERIENCE

Senior Backend Developer - Accion labs India Pvt Ltd, Bangalore, India

July 2015 - Present

- As a Developer worked on technologies like - Node.js, Express.js, MongoDB, MySQL, Redis, Jest, Supertest, MongoDB Realm, version controller (i.e. GIT, GitHub, Gitlab) and AWS services. I have worked on more than 5 different projects.
- Proficient in working both independently and collaboratively in a team setting.
- Designed and implemented server-side logic using Node.js and Express.js for efficient back-end operations.
- Created and maintained RESTful APIs, facilitating seamless communication between front-end and back-end components..
- Resolved problems, improved operations and provided exceptional service.
- Developed databases, programs and processes for integration and implementation across enterprise.
- Implemented Apple Payment Gateway with Amazon PayFort.

Junior Software Engineer - Syncoms, Bangalore, India

Mar 2013 - Apr 2015

- Worked on different aspects of .NET framework like ASP.NET, ADO.NET and C#
- Implemented database interactions using ADO.NET with backend SQL Server.
- Implemented WCF Services for CRUD Operations.
- Created Tables, Stored Procedures and Views in SQL Server.
- Involved in coordination team for requirement gathering and issues.
- Designed database structure as per the application requirement.
- Tested methodology with writing and execution of test plans, debugging and testing scripts and tools using NUNIT.
